- Gas cylinder storage
- Plant rooms
- Transformer chambers
- Oil stores
- Pump rooms
- Bin stores

# Stackable Louvre

## Features

- No visible horizontal joints.
- Unlimited height of assembly subject to structural restrictions.
- Sections up to 2500 mm wide.
- Can be paint primed or powder coated.
- Manageable lightweight sections.
- Anti-vermin mesh or blanking to rear.
- Approximately 50% free air.
- High visual impact.
- Complements other Sunray louvred products.
- Flush or recess fitting options.
- Optional flange detail.

## Optional Extras

- Powder coating finish.
- Blanking to rear in lieu of anti-vermin mesh.
- Fitted direct to brickwork or within an optional frame.
- Top panel can be fixed through front face if rear space is restricted or internal access is not available.

*Stackable, interlocking louvre system.*

*Louvred doorsets combined with the Stackable Louvre system.*

Box frame fixing option.

Standard brick fixing

## Bespoke design services

Complementing our standard door ranges we also offer a complete, bespoke design service to suit specific client needs or to overcome site/building constraints.

## Sunray installation service

We offer an installation service covering our steel door, louvre systems and ExcluDoor® security door ranges.

Work is carried out by our own qualified factory-skilled operatives, not sub-contractors.

Procedures are audited and our installation process is approved and certified by CHAS, Safe Contractor, Achilles Builders Confidence and Achilles UVDB.

Sunray's Installation Service is certified by the LPCB/BRE to LPS 1271 for security doors.

## Nationwide delivery service

Specialist transport including arctics, curtain sidlers with Moffett facility, flat bed lorries with HIAB facility and lightweight vans including Crossrail compliant vehicles.

*Newly installed Stackable Louvres powder coated in stone grey to blend in with surrounding stone cladding.*
